The solution of the entire question he thought depended upon the finding of a mode of procedure whereby the United States could help Spain without offending the haughty character of the Spaniards and the feelings of the Spanish ilitary classes, whose spirit and interests require conciliatory measures. In view of the fact that American interests must suffer enormously by reason of the con-tinuance of the Cuban war, business men everywhere would prefer peace to "jingo-ism," said Embassador Taylor. In con-clusion Mr. Taylor said that Spain now had the opportunity of pushing the Cuban war to a rapid termination, and that this would prove a far better policy than that of bandying words of defiance with a pow-

The Nacional condemns what it classes as the "unpatriotic attitude of the Spanish press" in attacking Captain General Weyler and other Spanish generals, claiming this hurts their prestige with the army. But the Nacional considers that war between Spain and the United States is impossible, "even should the resolution be adopted," owing to the "disastrous effect which it would have upon American finances;" thinks that Americans "only aim at autonomy in Cuba in order to secure special advantages in a politico-commercial treaty, tantamount to a monopoly of Cuban trade," and also expresses the opinion that the Spanish government should establish the Porto Rico reforms, voted by the Cortes, while postponing the reforms in Cuba "until the rebels are crushed." #### Feeling at Havana.

HAVANA. Dec. 19 .- The correspondent of the Associated Press has interviewed many merchants, bankers and other persons, high in business circles, political chiefs and leaders of existing political parties, and the consensus of opinion seems to be that the resolution of the foreign affairs committee of the United States Senate will never pass, and that, even though it does, the President will not approve it or permit himself to be influenced in any way by dence is expressed here that "the good the conservative element of the United States must ultimately prevail." #### BRITISH NOT EXCITED. How the News of the Senate's Action

Was Received in London.

(Copyright, 1896, by the Associated Press.) LONDON. Dec. 19 .- In spite of the flaming news placards the action of the foreign relations committee of the United States Senate in agreeing to report Senator Cameron's resolutions providing for the recognition of the republic of Cuba has not caused excitement in London. Most of the politicians are out of town and the bankers and brokers were unmoved. There was a fall on the stock exchange in American and Spanish securities, out of sympathy with the downward movement reported from Wall street, but it was shortly followed by a recovery. Comments of the Press.

LONDON, Dec. 19 .- Commenting on the attitude of the United States towards Cuba. as shown by the action of the Senate committee on foreign relations yesterday, the Evening News says this afternoon: "There is little doubt as to what would be the answer of a strong nation to American recognition of rebels, which is distinctly unfriendly and cannot be disguised by the specious offer of good offices. Spain is not strong, but she is high spirited, and will no doubt see in this action a determination to force a quarrel. We hope in the firm attitude of President Cleveland and sober American feeling that any action of Amer- ered; Charles Seibert, a merchant of Sarica will not be taken in such a way as to incur reproach. The Sun says: "If America recognizes Cuba, the fate of Spain's colonial empire and the present monarchy will be decided next year, as it is hard to see how Spain declaring war." After dwelling on the fact that Spain has only herself to blame by adopting "Pizarro methods" in Cuba, the Sun adds: "The affair shows that America must henceforth be seriously counted in the settlement of international questions people are affected."
The Pall Mail Gazette says: "The Senate

committee has produced an improved edi-tion of our domestic earthquake. It certainly hit upon by far the best solution of the embroilment that could be conceived in American interests. The committee, however, failed to catch the psychological moment, and in that respect its action is re-grettable. If Spain withdrew her officials from the island peace would not follow. Anarchy lasting for at least a generation would ensue, and American interests would suffer as severely as now. There would be no possible alternative except an American occupancy, and we do not believe the mass of Americans would care to assume sucn a burden. Yet, they must do it unless they are prepared to be the direct cause of reducing Cuba to the condition of San Domingo."

The Globe speaks of the Wall-street scare

as being "fee, fo, fum," and says it believes it is merely another exhibition of the "gambols of Wall-street bears." The Globe adds: "The United States and Spain are not yet at war, and in spite of bellicos declarations of the committee, nobody need be alarmed. A good many shrewd operators in Wall street will make a pile and a still larger number will lose. But there will be no war unless the Spaniards choose to declare one. From the point of view of the United States Senate continues, but no | the patriotic American it is singularly humiliating that the American market should go to pieces at the remote prospect of war with a power which is commonly described by courtesy as a second class." The Westminster Gazette ignores the

matter editorially. The Times, in an editorial, says: "Should the resolution, which has received favorable consideration at the hands of the foreign affairs committee of the United States Senate pass Congress, an open breach between the United States and Spain upon the subject of Cuba would be almost inevitable. Spain is in no condition to fight the United States. Cuba has successfully resisted, for two years, all of the troops which Spain has poured in upon the island. The best solution of the difficulty would be for Spain to adopt Senor Sagasta's scheme looking to home rule for Cuba. The reform party of the island would accept local selfgovernment in settlement of all demands. and would probably pay an annual tribute to Spain. ## JUDGE COOLEY'S OPINION.

Power to Recognize Belligerency Rests with the Executive.

CINCINNATI, Dec. 19.-The Commercial Tribune telegraphed Judge Thomas M. Cooley, of Michigan, that it held that Sec- | dent of this city, where he was known as a retary Olney was mistaken and wrong in foreign relations that Congress had not the law. Indeed, he was regarded as a firstpower to recognize the independence of for his opinion. To-night he telegraphed the following reply from Ann Arbor:

"The power to recognize belligerency and the lawfulness of action in defense of a government alleged to be de facto must devolve upon the executive power of the country, which can recognize no belligerent government until the fact is clearly made known to it that there is in existence : government maintaining itself and enforcing its authority against any other.

"But the President's power is not complete and final. The sovereign legislative power must provide for final intercourse and pass laws for the purpose; laws which the President would be impeachable if he would not join in executing. What he does in recognizing a new nation is clearly part legislative, and the action taken, taken by the President alone, would be far defective as to be impossible of execution without being perfected now or in the future by the sovereign legislative power. "THOMAS M. COOLEY."

## SIXTEEN MEN POISONED.

Three Dead and Others Made Ill by Drinking "Speak Easy" Whisky.

SISTERVILLE, W. Va., Dec. 19 .- Speakeasy whisky did awful work in the Benwood oil field in Monroe county, Ohio, this evening. The stuff must have been primarily made to sell, but not for drink. judging by the effects which followed its use. So far as can be ascertained to-night sixteen men imbibed more or less of the stuff and it "took hold" with a suddenness not to be surpassed by the worst "coffin varnish" of the slums of the big cities or the tarantula juice of the New Mexican frontier. Of the sixteen who invested in and swallowed more or less of the brew three were dead at 10 o'clock to-night, anas crazy and nine others were very sick indeed, and the lives of several of them were despaired of. The dead are: W. H. Price, a wealthy farmer, on whose land the first well in the Benwood pool was discovdius, O., who also has a store in the Benwood field; Thomas Clegg, a farmer, or whose farm there are one or more wells The man reported dying is Henry Roth, a farmer in the Benwood neighborhood.

The whisky was peddled around to-night by a man whose identity is yet unknown. It had raw alcohol for a foundation, with a dash of some sort of acid, and evidently included through accident or design a dead-

TWO MEN SHOT DURING A FIGHT LAST NIGHT AT NEW ALBANY.

Starke County Horse Trader in Jail on a Charge of Murdering His Business Partner.

Special to the Indianapolis Journal. NEW ALBANY, Ind., Dec. 19 .- Frederick Gehlbach and Sylvester Dooley had a fight to-night with Jesse and Albert Wilson and both were shot. Gehlbach received a bullet in his leg and Dooley was shot in the stomach and will probably die. The Wilsons sustained scalp wounds. The fight was the result of an old quarrel, and the Wilsons were the aggressors.

REV. HARWELL STILL IN JAIL. Meets His Heartbroken Wife and

Evinces No Emotion. Special to the Indianapolis Journal. RICHMOND, Ind., Dec. 19.-The Rev. J H. Harwell, who is in fail here for obtaining money on worthless checks, has been entirely forsaken by the church. During his incarceration the callers upon him at the city jail have been limited to a dozen persons at the most, and most of those were ministers and reporters. He said yesterday that he was confident his Cambridge City friends would come on during the day, but they failed to put in an appearance. The man has been ousted, not only from the ministry of the church, but from its membership. His friends and even some of his relatives have given him the marble heart. There is a genuine sympathy expressed for him among many Richmond people, and the general opinion seems to be that he will never be convicted for his crime or sent to the penitentiary. The theory of an unbalanced mind is put forward by persons who are trying to explain his queer actions, but there is now much evidence to substantiate the charge that Rev. Harwell had been crooked before the transaction of last Wednesday. On the other hand, her husband maintained the same apparent indifference that has characterized his actions ever since his arrest. He was not moved at all by her great grief. She returned home this afternoon, fully convinced that her husband's mind is unbalanced.

Special to the Indianapolis Journal. COLUMBUS, Ind., Dec. 19.-An unparal leled and daring outrage in this part of the State was committed last night near Cleona, Brown county. A stranger called at the residence of James Hamblin just before dark and asked for a night's lodging. He told Mr. Hamblin he was a government official employed to hunt for a gang of counterfeiters which was doing work in that neighborhood. Mr. Hamblin, suspecting nothing, invited him in and gave him good entertainment. The family consisted of Mr. Hamblin, his nineteen-year-old son and two daughters, aged fourteen and twelve. The stranger sat until 10 o'clock conversing, when suddenly he sprang from his chair, drew two revolvers and, covering Mr. Hamblin and his son, ordered them to turn their faces to the wall. He then bound them together, hand and foot, and daughters had retired and the stranger went up stairs to where they were sleepng and cruelly assaulted them. After bindthat of the father and brother, he went through the house and secured \$18 in money, which he pocketed. He remained until 2 o'clock a. m., gloating over his deed and the miseries of his unfortunate victims, then taking a valuable mare from the stable, rode away. The family remained in the condition he left them until nearly noon to-day, when they were discovered by persons passing hearing their cries. Sheriff King soon gathered a posse and went in pursuit of the villain. If he should be caught he will certainly be lynched, as the entire community is much

The crime for which Sutherlin is now under arrest in Starke county is the murder of Ed Fetters, his partner in horsetrading. A newly-made grave was discovered by some farmers near the bublic highway and it was opened. A skinned mule was found and beneath this mule, covered with an overcoat and some dirt, was the body of a man whose face was shot full of hoies and his skull fractured in two or three places. The body was recognized as that of Fetters. who had been missing a week or more Sutherlin and Fetters are known to have quarreled a few days previous to the discovery of the latter's body. Some school children testified to having found a man's cap covered with blood near the cabin where Sutherlin and Fetters made their home, and one boy states that he saw Sutherlin washing blood from his hands at a small stream near the schoolhouse; also that he noticed blood upon Sutherlin's shirt sleeves and shoes, and that Sutherlin said he had been butchering his hogs.

## BITUMINOUS STRIKE OVER.

Miners in Three Counties Agree to Fifty-Five-Cent Scale.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., Dec. 19. - The strike of the Indiana bituminous miners has come to an end. The men in Parke, Vigo and Vermillion counties have just voted to return to work at the fifty-five-cent scale for mining. They have been out for 60 cents since May 1. The tast to surrender were the men of Parke. Vermillion and Vigo counties, representing two thousand miners when the miners are busy. Some operators in southern Indiana had conceded 60 cents and are operating their mines at that price. It is thought they will now ask their men to accept the lower price. cluded to accept the reduction of 5 cents say they will first have to get contracts to take the places of these with their regular customers lost to them by the strike before they can give much employment.

## Two Prisoners Break Jail.

Special to the Indianapolis Journal. ANDERSON, Ind., Dec. 19.-A successful jail delivery was made last night, and two prisoners, John Patton, colored, and John Carter, white, both escaped. The men were under sentence of two years each. Patton shot a colored man in Alexandria last October, and Carter pleaded guilty to the charge of grand larceny. Ten prisoners were confined on the second floor of the jail, Carter and Patton being among the number. The prisoners had secured a short piece of scantling and with a saw made from a knife blade and two or three small slats of iron torn from a bunk managed to gain hold on the stone slab under a window and then pried it up about ten inches, where it was held in place by a block. The rest was easy work, as noth-ing intervened between them and freedom but a poorly constructed brick wall nine inches thick. Special to the Indianapolis Journal. NOBLESVILLE, Ind., Dec. 19.-The Farmers' Institute of Hamilton county, before its adjournment this week, passed resolutions asking the Legislature to prohibit football by law; to legislate against the spread of wild lettuce and hog cholera and against the exorbitant charges at the stockyards at Indianapolis. The resolution in regard to the stockyards was as follows:

"Whereas. The charges made by the Stockyards Company and commission men at Indianapolis are extravagant and unwarranted, to-wit: Corn, \$1 per bushel; hay, \$1 per hundred pounds; commission on cattle. \$10 per car, or 50 cents per head; hogs and sheep, \$10 per double deck or \$6 per single deck, and other charges in like proportion,

"Resolved, by the farmers of Hamilton county, in institute assembled, That our representative and senator in the Legislature be requested to secure legislation to relieve the farmers of this unjust and exorbitant expense.

A few days ago he received a letter from Greenfield, O., in which was in-closed a draft for \$50, and had it cashed. This morning George H. Lloyd, a traveling salesman, came to the city and reported to the police that a letter mailed to him here had been delivered to another man of his name, and that it had been cashed. An investigation led to the arrest of Lloyd. The Postoffice Department is also looking after the case, and an inspector was expected here this evening. The friends of young Lloyd believe that there was no intent upon his part to do anything of a criminal nature, but they believe that he made a serious mistake in not returning the letter to the postoffice immediately upon
